Experience

- Aug. 2021 **Graduate Research Assistant.**, *The University of North Carolina at Chapel Hill, NC, USA*.
- Present Advisor: Prof. Gedas Bertasius
○ Project: Long-term video understanding with multimodal data.

- Aug. 2020 **Vision and Learning Lab** , *National Chiao Tung University, Hsinchu, Taiwan.*
- Jul. 2021 Research Assistant. Advisor: Prof. Yen-Yu Lin (NCTU) and Prof. Ming-Hsuan Yang (UC Merced)
 - Project: Sound localization in self-supervised fashion.
 - We propose an iterative contrastive learning framework that requires no data annotation. At each iteration, the proposed method takes the localization results in the previous iteration as the pseudo-annotations.
- Aug. 2019 **Vision and Learning Lab**, *National Taiwan University, Taipei, Taiwan.*
- Jul. 2020 Research Assistant. Advisor: Prof. Yu-Chiang Frank Wang
 - Project: Exploiting Audio-Visual Consistency with Partial Supervision for Spatial Audio Generation
 - We exploit the correlation between each audio component and the spatial regions of interest, which would guide the learning of binaural audio generation during training.
- Mar. 2019 **National Institute of Informatics**, *Tokyo, Japan.*
- Jun. 2019 Research Intern. Mentor: Dr. Yin-Qiang Zheng
- Sep. 2017 **Vision and Learning Lab**, *National Taiwan University, Taipei, Taiwan.*
- Feb. 2019 Student Researcher. Advisor: Prof. Yu-Chiang Frank Wang
 - Project: Cross-Modality Attention for Audio-Visual Event Localization
 - We propose a novel end-to-end trainable module for visual, temporal, and audio co-attention, which can exploit cross-modality information across video frames for event localization.
 - **Awarded two master thesis honorable mention awards from IPPR and TAAI respectively.**
